Project sheet

Call for the implementation of some activities, foreseen by the functions defined by art. 34 of Legislative Decree 152 of 3 April 2006, on the implementation of the National Sustainable Development Strategy

TENDER NOTICE OF APRIL 24th, 2018

Project summary - FORESTENERGIA

Purpose of the announcement: To develop activities and initiatives aimed at disseminating and raising awareness on the issues of sustainable development and/or the circular economy.		
Beneficiary: Condotta Forestale - Association of Interests and Forest Communities (L'Aquila)		
Duration	7 months	
	Start date of activity: 01/2019	End date of activity: 07/2019
Specific objective	The FORESTENERGIA - NP8 project had the real objective of promoting good practices in the forest-energy supply chain.	
Descrizione delle attività	Action 1. Drafting of a manual of the supply chain good practices, starting from the experience lived by forestry associations in Abruzzo and Molise	
	Action 2. Communication activities due to the activation of a dedicated web portal.	
	Action 3. Territorial animation thanks to the organization of two conferences, one in Abruzzo and one in Molise, to promote good practices in the forest-energy supply chain, and in the National for Sustainable Development Strategy	
Output	<ul style="list-style-type: none">• Drafting of a manual of good practices• Creation of a dedicated web portal• Creation of summaries published in journals of sector	

	<p>(SHERWOOD;Tecniko&Pratiko;L'OPERA)</p> <ul style="list-style-type: none">• Project brochure; Roll-up;• Change of vision of decision-makers of local communities, of the operators involved and, in general, of the populations of inland areas, on the positivity of the sustainable use of forest biomasses for the production of thermal energy as a model of circular, local, sustainable economy, both from environmental, social and economic point of view.

CORRELATION SCHEME BETWEEN THE ACTIVITIES CARRIED OUT BY THE PROJECT AND THE NATIONAL SUSTAINABLE DEVELOPMENT STRATEGY GOALS

The carried out activities are in line with the National Sustainable Development Strategy goals, and have perfectly embodied at least three areas of the Strategy. This, as the forestry chain is a fundamental balancing support between environmental, landscape, protective and resilience factors of natural capital, (PLANET), the need for productive, sustainable and low-impact models, (PROSPERITY), and finally the need for cultural and tourist integration among all the actors of the mountain territory to generate new energy models that give sustainable income and development (PARTERSHIP).
